Axial scx10 trail honcho manual. Axial scx10 ii honcho manual. Axial scx10 honcho manual pdf.

Points for \$ 1 Dorceese Legend Legend Elite 10 15 17.5 2000 Points = \$ 5 points Discounts displayed here do not include bonus points for the Select product. (10.87 kg / cm), Double sphere Bearings ESC: AE-5L Waterproof, swallowed between Lipo or NiMH operation with a simple bridge, Star battery connector, integrated LED light controller (Note LED conductors are not compatible with Antique LED Axial Light Light Lights or Third Party LED Ropes LED) Network Gears: 56T Step 32, Plastic Pine Pine Pine 15T Step 32, LED Steel Construction Lights: Four White Lights' For Fraction And Direction Indicators And Two Red lights for rear lights Battery tray: front Easy mounting access, can accommodate up to 5.75 x 1.2 "(147 x 32 mm) 3S, 5000mAh, with battery pins in place, the dimensions are reduced to 5 , 4 x 0.94 "(138 x 24 mm) Front and rear axles: Tempered steel AR44 Hi-pinion axle: A, Sporties CNC metal gears, optimized gear ratio for reduced torque pair, optional optional gear, A penn shaft carcar or \$ increased loose, greater load bearings for the duration, 8 A * master pin tree eliminates tire wear, single tree shaft shaft, all metallic lock, 10 A A A increase adjustments for knots e Straight axle adapters, an optimized transmission ratio; 3.75 in comparison; 3.75 with 2.92 previously, for the lower body of torque: Painted front Honcho PA VA: Scale pipe design with aluminum wheels Sliding plates: A, 1.9 "method, 26 mm (1.02 ") Wide, 53, 9 mm (2.12 ") Height, 12 mm Hexagon, tires with black matte finish: 1.9 "Falken Wildpeak m / t, aggressive mud floor with incredible tracking in many surfaces, 4.7" (119, 4 mm) high, 1.5 "(38.1 mm) wide Closed, full of oil, steel springs, in white-colored suspension: A, suspension geometry optimized with integrated supports in the upper and lower connections, the design of 4 connections reduces the direction of the axis and the torch of the couple and protects from the Suspension winding in high power applications, Compound connections Direction: A, adequate GMS geometry using 3 Configuration connections with the Panhard bar, 45 A * Direction necessary to complete the NiMH of 6 cessations or Lipo 2-3 equipment for the construction of Adequate chargers and paths on how it is in the box? Horizon Hobby RC Club: the points displayed are points that you will earn based on the level of registration and the cost of the product cost. If the product is marked with the bonus points badge that you will also earn the extra points "Bonus Points" listed in addition to the calculated points displayed more than 80,000 items in stockvest delivery at the time of order before 14: 00shipping from 69 Official KAs Distributorsresulting and Service Chassis: A, C-channel C-channel side guide with adjustable body mounting, adjustable pane groups A e a ~ A e a ~ A e a ~ "with bar mounting points Stabilizers, mounting points for 2-speed servo and guincho and 2 speeds, Servo System mounted on adjustable frame transmission: 4WD full-time transmission locked with WB8 HD bear axes, UVJ-style front transmission shafts for 45 * A * , A * of the direction of the direction, full transmission with ball transmission: A, three Layout AX10 gears, metal motor plate, high-speed adjustable proportion or competition level monitoring speed and Slipper: Double cushion design for additional surface, 32P Gear Step for high torque Engine application: 35 shifts, equipped brush, integrated cooling fan 2-channel Radium TTX200 SLC TACTICO with TR325 receptor, accelerator direction and adjustment and reverse endpoint, direction with the pressure button and the compensation of the direct servo accelerator of the TSX45 tactics, water resistant, classification of the Torque of 151 ounces / in. (1) RTR SCX10 II Trail Honcho with swabs full of oil, wheels, tires, body, rock slippers, radio, ESC, engine, decals, waterproof reception box, LED lights and (4) AA batteries (1) Manual user vehicle: A, 19.25 "(489 mm) width: 8.9" (226 mm) height: 9.4 "(223.4 mm) diagram between axes in stock: 12.3" (312.4 mm) adjustable at 11.4 "(289 mm) or 12.0" (305 mm) with optional connection kits sold separately from the ground: A, 3.0 "(77 mm) Weight: 4.5 pounds (2.04 kg) approximately , with electric optimized ratio: A, 3.75: 1 final transmission reasons (FDR): 40.44, stock (33.69-54.15 with different combinations of straight / pinion teeth, additional teeth and pine gears must be purchased separately) CorpoCruitor: A, 17, 2 "(438 mm) Width: 8" (203 mm) Height: 5.5 "(140 mm) 16 Other products in the same category: Make sure you have access to your account to see the most points accurate You will earn your purchase.
